

This volume analyses in depth the reception of early Greek philosophy in the Epicurean tradition (from Epicurus to Diogenes of Oinoanda) and provides for the first time in scholarship a comprehensive edition, with translation and commentary, of all the Herculanean testimonia to the Presocratics.

**THE SERIES: STUDIA PRAESOCRATICA**

Complementing the series *Traditio Praesocratica* (in which the testimony of the major presocratics is presented with facing translation), *Studia Praesocratica* presents monographs, commentaries, and collected essays on early Greek philosophy and its doxography.
